The Honorable Ron DeSantis
Governor, State of Florida
400 South Monroe St
Tallahassee, FL 32399-0001

Dear Governor DeSantis,

I am writing to strongly oppose any effort or state funding aimed at removing the Kirkpatrick Dam and draining the Rodman Reservoir. This is not just about a body of water — it's about preserving a way of life, a treasured community space, and a part of Florida's living history.

Rodman Reservoir is more than water — it's part of who we are. For decades, it has fueled small businesses, supported fishing guides, and attracted tourists who help sustain the economy in our local communities. It is a place where memories are made, where generations of families have fished, camped, paddled, and connected with nature. To lose Rodman would be to lose a piece of our identity and our story.

Rodman is a top-tier destination for anglers, paddlers, and outdoor enthusiasts from all over the state and beyond. But even more importantly, it offers accessible outdoor recreation for families, veterans, and people of all ages. In a time when Florida is growing rapidly and outdoor access is more limited and expensive than ever, Rodman provides a rare, affordable place for people to unplug, connect, and enjoy our natural beauty.

Removing the reservoir would be a politically motivated decision that disregards the voices of those who live here, recreate here, and love this place. It would destroy a cherished environment that has served the public well for over 50 years. The Rodman Reservoir isn't broken — it's working. It's thriving. And it deserves protection, not destruction.

Governor DeSantis, I urge you to stand with us and oppose any funding or policy that would lead to the loss of Rodman Reservoir. **We request a VETO of any potential appropriations aimed at restoring the Ocklawaha River and, ultimately, removing the Rodman Dam.**

Protect this irreplaceable resource — for our economy, our environment, and for the people of Florida who depend on it.

Sincerely,

[Your Name]
